

A diagram of an eye glass case pattern. It features a central vertical dashed line. The top edge is a curved line that starts at the left edge, goes up, then curves down to the right edge. The bottom edge is a straight horizontal line. There are four small black squares: one in the top-left corner, one in the top-right corner, one in the bottom-right corner, and one in the bottom-left corner.

Eye Glass Case Pattern
